

# **CORNHOLE BOARD CARE INSTRUCTIONS**

- **Store your boards inside, away from weather, water, and humidity when not in use.**
- **When playing, it is not recommended to play on concrete surfaces or during harsh weather conditions.**
- **Store your boards with care. We recommend hung up on a wall with Tornado Hooks (after all, they are works of art!). If not hung up, then back to back. If you store them face to face, put an old towel in between them to prevent scratching the clear coat or design.**
- **Give the tops a wipe down from time to time, using mild soap and water or Windex.**
- **Your boards are durable and sturdy, but not invincible, if you take care of them, they will last you forever.**
- **Thank you for your purchase, now get out and PLAY!**
